Audit Target

The target of the audit is the security management system “storage and delivery of security printing products” of company Julius Schröder GmbH & Co. KG, Karl-Schmid-Straße 7, 81829 München, Germany.

Audit Result

The certification confirms that the audited company has installed for the audit target a security management system according to DeTeCardService/TÜViT TU4[®] and utilizes it.

The audit target fulfils all applicable audit requirements.

Summary of the Audit Requirements

1 Responsibility of the Top Management

The top management is responsible for the definition and documentation of the security policy.

2 Administration

The security representative is responsible for the administration of the security management system.

3 Staff Security

For all security relevant tasks only trustworthy and accordingly qualified staff are to be employed.

4 Material Flow

Adequate security measures are to be defined for single materials, (intermediate) products, data and documents in the production.

5 Security in the Information Technology (IT)

Confidentiality, integrity, authenticity and availability of all production and personalising data in all phases have the highest priority.

6 Passive Security Requirements

Passive building security measures must have a suitably structured order and resistance quality to represent an effective physical hindrance for potential attackers on their attack path.

7 Active Security Requirements

In order to recognise an attack if possible in the formation phase, active elements for access control and alerting are required.

8 Auditing (external)

In general the auditing is carried out on the basis of the current valid version of the TU4®.
