## **Audit Target**

The target of the audit is the security management system for the production, storage of security labelling systems and delivery of company Hipp SecuRasta GmbH, Sendener Stiege 4, 48163 Münster Germany. These security labeling systems consist of security paper or foil, self-adhesive with recognizable authenticity, counterfeit proof and tamper proof features, personalized – without means of payment.

## **Audit Result**

The certification confirms that the audited company has installed for the audit target a security management system according to DeTeCardService/TÜViT TU4 and utilizes it.

The audit target fulfils all applicable audit requirements.

## **Summary of the Audit Requirements**

### **1 Responsibility of the Top Management**

The top management is responsible for the definition and documentation of the security policy.

### **2 Administration**

The security representative is responsible for the administration of the security management system.

### **3 Staff Security**

For all security relevant tasks only trustworthy and accordingly qualified staff are to be employed.

#### **4 Material Flow**

Adequate security measures are to be defined for single materials, (intermediate) products, data and documents in the production.

#### **5 Security in the Information Technology (IT)**

Confidentiality, integrity, authenticity and availability of all production and personalising data in all phases have the highest priority.

#### **6 Passive Security Requirements**

Passive building security measures must have a suitably structured order and resistance quality to represent an effective physical hindrance for potential attackers on their attack path.

#### **7 Active Security Requirements**

In order to recognise an attack if possible in the formation phase, active elements for access control and alerting are required.

#### **8 Auditing (external)**

In general the auditing is carried out on the basis of the current valid version of the TU4.
